Summary

Motivated and detail-oriented Front-End Developer with a strong foundation in React. Recently completed a traineeship where I developed hands-on experience in creating dynamic, user-friendly web applications and successfully contributed to a real-world project. Proficient in HTML, CSS, JavaScript, and TypeScript, with experience in leveraging modern frameworks/libraries like Mantine, Zustand, React Hook Form, and Next.js. Skilled in transforming designs from Figma into functional web applications. Experienced in project management and issue tracking using Jira, ensuring efficient collaboration and workflow management. Demonstrated ability to learn quickly, solve problems efficiently, and work collaboratively in a team environment. Dedicated to continuous learning and staying current with industry trends to deliver high-quality web solutions.
